Nature Park

Lift Weights

Todd / USA 

What can you do in the park?

Hi everybody. Hi, this is Todd, your teacher from ELLLO, and today I'm in a park in Seoul, Korea, and it is a beautiful, beautiful park, and you can do many things in this park.

You can take lovely pictures of the city. You can actually see the entire city because it's on a hill, so you have a great view. You can see things here that you cannot see down on the street, and you can relax. It's quiet. You can read a book, you can stretch out on the grass, but it's kind of a nature park. So you can't play sports, you can't do exercise. But Korea has some great parks near the river, and the parks near the river are perfect for sports. You can run, you can ride a bike, you can play sports, you can do exercise, you can even lift weights. They have little weight machines down there and you can exercise. They have these all over Korea, actually. So you can definitely get exercise in Korea and you don't have to go to a gym. So the parks in Korea are fantastic, some of the best in the world. You can do so many things in these parks, and that's one of the reasons I really, really love coming to Korea.

Quiz

Answer the following questions about the interview.

1) What can he see?
