Corporate Terminology – Psychology

Insomnia

A condition characterized by difficulty falling or staying asleep. It can impact daily functioning and overall health.

“I used to suffer from insomnia but now I sleep a lot better.”

Perception

The process by which individuals organize and interpret sensory information to understand their environment.

“Regardless of what you say, my perception is that Jenny is not taking proper care of her customers.”

Motivation

The driving force behind actions, desires, and needs. It explains why people initiate, continue, or stop behavior.

“With a little positive motivation our sales team improved their behavior.”
